

Confirmation of Product Type Approval 22/NOV/2010

Please refer to the "Service Restrictions" shown below to determine if Unit Certification is required for this product.

This is to certify that, pursuant to the Rules of the American Bureau of Shipping (ABS), the manufacturer of the below listed product held a valid Manufacturing Assessment (MA) with expiration date of 26/OCT/2015. The continued validity of the Manufacturing Assessment is dependent on completion of satisfactory audits as required by the ABS Rules.

And; a Product Design Assessment (PDA) valid until 18/OCT/2015 subject to continued compliance with the Rules or standards used in the evaluation of the product.

The above entitle the product to be called Product Type Approved.

The Product Design Assessment is valid for products intended for use on ABS classed vessels, MODUs or facilities which are in existence or under contract for construction on the date of the ABS Rules used to evaluate the Product.

ABS makes no representations regarding Type Approval of the Product for use on vessels, MODUs or facilities built after the date of the ABS Rules used for this evaluation.

Due to wide variety of specifications used in the products ABS has evaluated for Type Approval, it is part of our contract that; whether the standard is an ABS Rule or a non-ABS Rule, the Client has full responsibility for continued compliance with the standard.

SPEICH S.R.L.
Model Name(s): PG - PGD

Intended Service:	Straight Line Wipers for Marine Applications
Description:	Single and double arm internal motor. See attachment
Ratings:	Power supply: 12-24Vdc / 110-220Vac
Service Restrictions:	Unit Certification is not required for this product.
Comments:	Wipers are not suitable for hazardous area installations as defined in 4-8-3/13 of the Rules.
Notes / Documentation:	Biamino e Figli S.p.A. Tests Reports No.0151, 0152, 0153 and 0154 dated 01 December 2009 and 13 May 2010 EMC S.r.l. Test Report No.0701/2010 dated 05 July 2010 BSH Certificate No.618 dated 02 September 2009
Term of Validity:	This Product Design Assessment (PDA) Certificate 10-GE622872-PDA, dated 19/Oct/2010 remains valid until 18/Oct/2015 or until the Rules or specifications used in the assessment are revised (whichever occurs first). This PDA is intended for a product to be installed on an ABS classed vessel, MODU or facility which is in existence or under contract for construction on the date of the ABS Rules or specifications used to evaluate the Product. Use of the Product on an ABS classed vessel, MODU or facility which is contracted after the validity date of the ABS Rules and specifications used to evaluate the Product, will require re-evaluation of the PDA. Use of the Product for non ABS classed vessels, MODUs or facilities is to be to an agreement between the manufacturer and intended client.
ABS Rules:	2010 Steel Vessel Rules 1-1-4/7.7, 1-1 Appendix 3, 4-9-7/13 (Table 9 tests 1, 7, 8, 17 and 18).

National Standards:**International Standards:**

IEC 60945 Sections 9.1, 9.2, 9.3 for radiated and conducted emissions. ISO R 694 and IEC 60945 Section 11.2 for Steering-Magnetic and Steering-Magnetic-Compass safe distances.

Government Authority:**EUMED:****Others:**

ABS Programs

ABS has used due diligence in the preparation of this certificate and it represents the information on the product in the ABS Records as of the date and time the certificate was printed. Type Approval requires Drawing Assessment, Prototype Testing and assessment of the manufacturer's quality assurance and quality control arrangements. Limited circumstances may allow only Prototype Testing to satisfy Type Approval. The approvals of Drawings and Products remain valid as long as the ABS Rule, to which they were assessed, remains valid. ABS cautions manufacturers to review and maintain compliance with all other specifications to which the product may have been assessed. Further, unless it is specifically indicated in the description of the product; Type Approval does not necessarily waive witnessed inspection or survey procedures (where otherwise required) for products to be used in a vessel, MODU or facility intended to be ABS classed or that is presently in class with ABS. Questions regarding the validity of ABS Rules or the need for supplemental testing or inspection of such products should, in all cases, be addressed to ABS.
